About Me

A Computer Engineering Technology student at the Technological University of the Philippines with hands-on experience in developing application software using Python. Currently learning web development with HTML and CSS, with a strong interest in software and web application development.

Education

Arellano University Jose Rizal Campus

2021 - 2023

ICT

Technological University of the Philippines

2023 - Present

*Bachelor of Engineering Technology - Major in
Computer Engineering Technology*

Projects

StatEase

2024-2025

- An application designed to calculate and analyze statistical data gathered from research studies, providing accurate results and improving data processing efficiency.

ComponentZone

2024-2025

- A Data Structures project that manages and stores electronic components. Includes built-in sorting for classification and a search function to check component availability in storage.
